ARE YOUR COPYING COSTS TOO HIGH?

Do you know your total costs?

Are you overlooking out-of-pocket copying costs—many of which are hidden? Major corporations have achieved substantial cost reduction—some over 50%. You can take advantage of the experience of these companies. Cutting copying costs is not a simple task. It requires a combination of systems and equipment utilization. Only through specialized know how can copy cost reductions be maximized. With our know how, we can offer you two suggestions:

COMPENDIUM OF COPYING PRACTISES

1. A report on cost reduction techniques and practises of over 1,000 users . . . 15 case histories detail ways to reduce out-of-pocket costs—one corporation's savings were over $100,000 annually. The cost of this Compendium is only $75.00 and is available on a ten day inspection. Order your copy now or ask for the brochure describing the Compendium.
2. If you spend over $5,000 monthly throughout your company on out-of-pocket copying costs, you qualify for our advisory services. These services are available on a pay-as-you-save basis. We can predict your savings based on our experience with other companies. Phone or write for our descriptive brochure.
